### **DID YOU KNOW?**

North of the Finch Hydro Corridor, is the only area within the entire route where East Highland Creek is nowhere to be seen. Here, the creek is channelized completely underground.

McNicoll Ave

To learn more, check out the East Highland Creek Route Profile and look for this number in the key maps.

## **DID YOU KNOW?**

Most of East Highland Creek does not follow its original watercourse. This is due to the channelization of its headwaters to make way for residential and commercial developments, and the construction of Highway 401.

### **DID YOU KNOW?**

Morningside Park is the location for the Morningside Legacy Project. This project aims to restore Indigenous acknowledgement and

presence at the park by providng a space where they can gather and celebrate, and where the public can learn more about their cultural 🖌 🗐 history and local conservation.
